UTKARSH SINGH SHRINET

Professional Summary

Currently pursuing a Computer Science Engineering degree with a strong interest and foundational knowledge in cybersecurity. My expertise includes web penetration testing, Linux environments, and proficiency in tools such as Burp Suite, Nmap, and Nuclei.

Identified and implemented countermeasures to protect against phishing and social
engineering attacks.

Conducted periodic vulnerability assessments that identified potential threats and implemented appropriate security measures.

A results-oriented Cyber security professional with expertise in ethical hacking techniques, specializing in vulnerability assessment, penetration testing, and threat analysis. Proven ability to identify and mitigate critical security risks within complex network environments, utilizing advanced tools and methodologies to proactively protect sensitive data and infrastructure.
